EXPORTERS
TRADERS

TD Models & Scientific Company (previously known as Quality Model Works); Incepted over half a decade earlier by Late Shri Prem Chand Jain, an artist by nature who thought of putting all his skills in one basket to create educational models and thus his firm by the name of Quality Model Works came into existence.

He started building models under the supervision of Prof H.C Jain, Head of Department of Biology in S.D.College, Ambala Cantt. and the models which he made were considered very durable yet detailed.

That's the reason his major products are exported to various countries across the globe.

In the year 2002, the name of Quality Model Works was branded to TD Models for a bigger thrust in the international market.

This Group is the leading company providing comprehensive solutions and services in the field of science education catering to the wide variety of requirements at undergraduate and graduate levels in schools and colleges. It is into the manufacturing, trading and export of extensive range of scientific equipments, laboratory instruments and educational products for all levels of schools and colleges, backed by an experience of more than 50 years in the service of science education and proud history of association of some of the world's leading names in this field.

The key asset of the company is the unparalleled history of ethical business practices with absolute professionalism committed to making the customer / end user satisfaction paramount. With total control of the business and all related activities from its main office situated at Ambala Cantt, INDIA, the company has implemented ISO 9001:2008 Quality Management System right up to the core leading way to the quality conscious culture in the company. The company also boasts of a host of its products complying with the stringent CE norms, which are must for the acceptability of the products in the western countries.

At TD Models & Scientific Company we believe in sustaining old relationships and nurturing new ones.

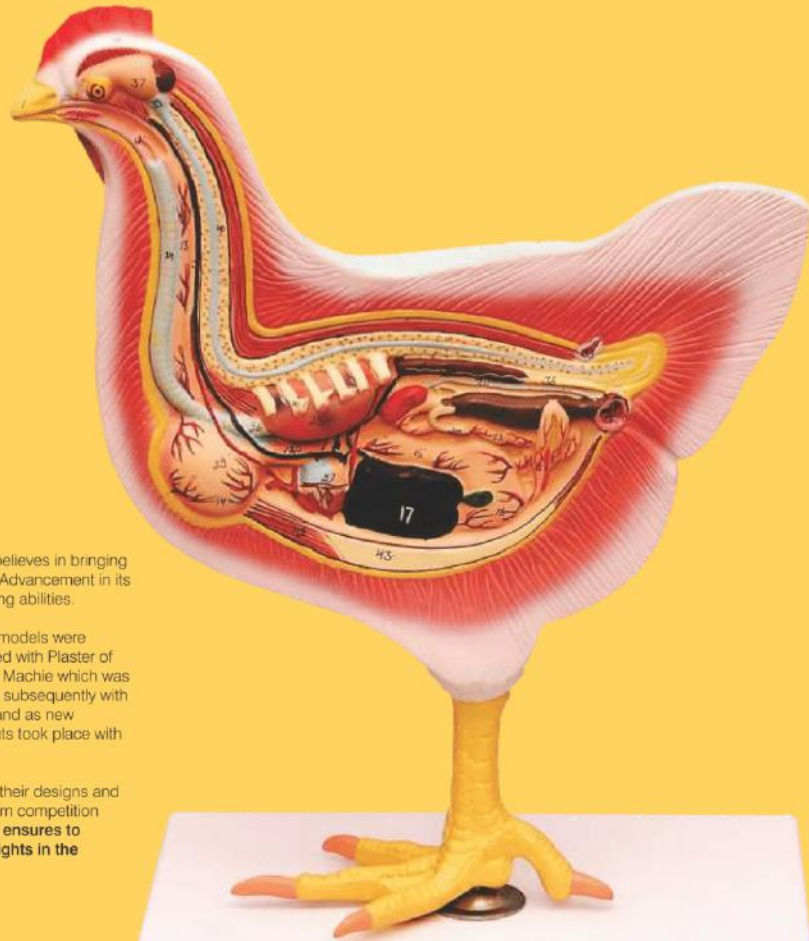

The company's focus on wide range of products (as per the requirements prevalent in the different regions around the globe), excellent product quality (outstripping the international standards and specifications), continuous product modification and development (to keep itself up to date with the latest in this field).

Product deliveries as per the schedules is facilitated by the factors as:

- (a) Continual quest for self-excellence
